

IAS WATER QUALITY SKIMMER FOR SEDIMENT AND EROSION CONTROL APPLICATIONS

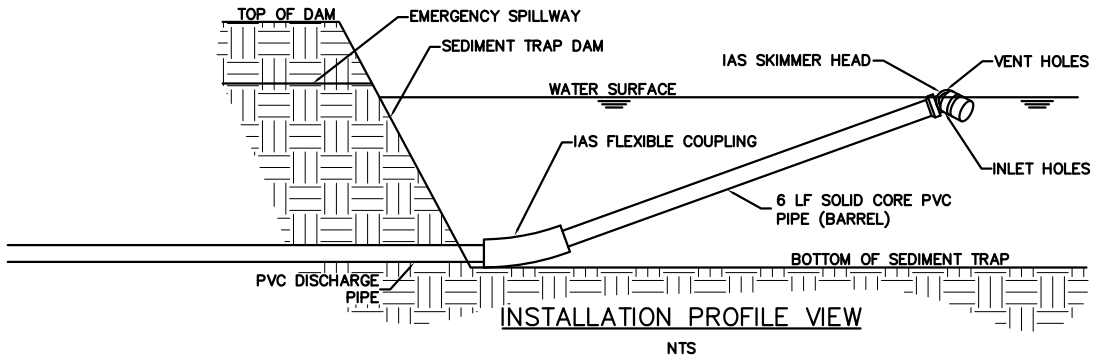

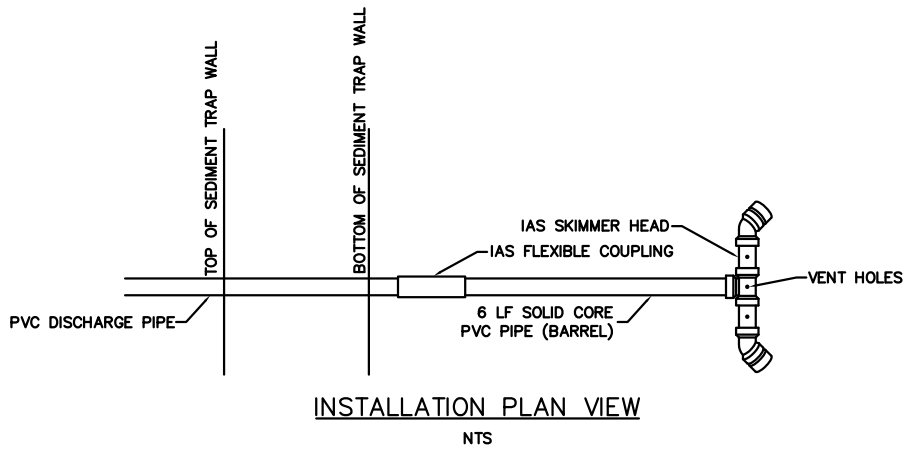

Why choose IAS skimmers:

- No moving parts to break, become clogged, or seize up due to sediment
- Avoid surface debris by skimming just *under* the surface of the water making them virtually maintenance-free
- Lightweight, footed design resists becoming lodged in mud
- Orifice plate is installed on *outside* of sediment basin for ease of installation and inspection
- Marked with distinctly-colored stripes to easily determine skimmer size
- Proudly manufactured in the United States, including all parts & components
